Windlass Cobra Steel Talon

Category:

Product ID: 402628
Manufacturer: Windlass Steelcrafts
Price: 72.00 EUR
Availability: Out of stock

Windlass Steelcrafts

See it in our store.

Another All Purpose Function addition to the Windlass Cobra line! Like the Cobra Steel Falcata (#402532), this survival knife features a hand-forged, 1095 high carbon steel blade, fully tempered in state-of-the-art computer controlled ovens to a Rockwell hardness of 48º-52º so it will flex in a cut and come back for more. Features a rubber scale on a full profile tang for great performance while absorbing shock. Inspired by Eastern and African swords and knives with inward curving blades. A great bush and defense pattern. Includes a tough, saddle grade leather belt sheath. Comes with a razor sharp edge.

Product parameters:
• Blade length: 38,1 cm
• Total length: 53,3 cm
• Blade thickness: 4,7 mm
