Another impressive design by Miltner Adams. With the MA-4, we present the big brother of the very popular MA-2. The angled blade with the curved edge exhibits its full potential, especially in pulling cuts, while the contoured handle and deep finger choils provide a maximum of grip and safety. Quick cuts in an emergency situation are accomplished easily with the MA-4. An extraordinary knife, which provides great function, in any situation. Dark gray aluminum handle scales with an AUS-8 steel blade. Includes an innovative Zytel sheath system and a large Tek-Lok.

Product parameters:
