Williams Personal Defense Flashlight from CRKT. The CRKT flashlight series, designed by James Williams, provide powerful LED output light ideal for outdoor use, personal safety, self-defense, everyday-carry, and tactical applications.

The CRKT flashlight series, designed by James Williams, provides powerful LED output light ideal for outdoor use, personal safety, self-defense, everyday-carry, and tactical applications. The hard-coat, black, anodized aluminum bodies are tough and strong for lasting durability.

Projected lens reflectors provide maximum output and brightness of blinding light. Caution is advised when using the lights; do not flash directly into the eyes for extended periods.

The industrial grade rubberized, tail cap button is pushed to control the multiple light modes.

Personal Defense Flashlight Modes -

High Mode Functions (Bezel Out) 100 lumens - Approx. 50 minutes of run time.

1. Momentarily On-Slightly depress the on-off button with your thumb or index finger to temporarily activate the light. Release and the light turns off.
2. Fully On-Depress the on-off button until it clicks to fully activate the light. Click to turn off.
3. Strobe On-Quickly depress the on-off button twice to activate the strobe. Fully click the final press to lock into a constant blinding strobe mode. Click to turn off.

Low Mode Functions (Bezel In)

1st click displays a low 3 lms light with 65 hrs. of run time.

2nd click turns the light off.

3rd click displays a mid 10 lms light with 9 hrs of run time.

4th click turns the light off.

5th click displays a max 50 lms light with 1.5 hrs. run time.

6th click turns the light off.

7th click displays (S.O.S.) with 50 lms and 5 hrs. run time.

8th click turns the light off.

After the flashlight has been off for 2 seconds, it resets to the original settings.

*Run times may vary depending on batteries and conditions
