---

Cold Steel is a world known maker of knives, swords and other edged weapons and tools, all products are made of best available materials. Company was founded in 1980 by company president, Lynn C. Thompson. The company's products include fixed blade knives, folding knives, swords, machetes, tomahawks, kukris, blowguns, walking sticks, and other martial arts-related items.

[See it in our store.](#)

1849 Rifleman's Knife made by Cold Steel. We have long admired the timeless good looks and pure functional design of the American Rifleman's Knife. This rare blade was originally issued in extremely limited numbers, and has the distinction of being the first knife officially designed for, and purchased by, the U.S. Army back in 1849. Our blade takes inspiration from an antique in the private collection of our company President Lynn C Thompson, and while our blade is not an exact replica, it features many of the design nuances that make this knife such a classic!

It's big, stout spear point blade is stiff enough to oppose even much larger weapons, making it an ideal complimentary knife to carry and use alongside a saber or cutlass. Plus, its beefy 12" blade and solid guard make a more than capable stand-alone blade in its own right! It's easy to see why it was chosen as a back-up blade for our nation's riflemen. The Cold Steel 1849 Rifleman's Knife is hand forged from 1085 High Carbon steel, with a solid brass guard and beautiful Rosewood handle scales that encapsulate the sturdy full tang. The Rifleman's Knife is sold complete with a high quality hand-stitched leather sheath and belt frog, with polished brass throat and chape. Perfect for re-enactors and collectors alike. Add one to your collection today!

### Product parameters:

- Blade thickness: 6 mm
- Weight: 710 g
- Blade length: 30,4 cm
- Handle length: 13,2 cm
- Steel: 1085
- Total length: 44,5 cm
- Blade width: 4 cm
