The original 4 Max proved to be all that we hoped for. But it was expensive and difficult to manufacture and deliver in a timely manner to meet customer demand. The 4 Max Scout is easier to produce and is a far more affordable alternative. It features an extra wide, drop point blade and stone wash finish, which is identical to the original 4 Max. It's crafted from 5mm thick AUS 10A steel, for strength, toughness and edge holding potential. The handle's silhouette mirrors the original. Instead of a G-10 handle the 4 Max Scout has one made of Griv-Ex with stainless steel liners and a Griv-Ex back spacer. Equipped with Andrew Demko's ground breaking Tri-Ad locking mechanism the 4 Max Scout has passed every one of our grueling shock and impact tests and then gone on to hold 600 lbs. of free hanging weight with no damage!
