Like the Special Forces Shovel, the Bad Axe is made of medium carbon steel, over 2mm thick and fully heat treated for strength. The edges of the Bad Axe have been factory honed to a sharp utility edge that can very easily be brought up to razor sharpness without too much effort.

The twin edge design offers double the cutting potential. When one edge begins to dull the other is razor sharp. Plus the axe cuts in either direction.

It has all the necessary weight for serious chopping, and for target throwing, it's remarkable! With all its points and cutting surfaces, it will stick in virtually any position.

Product parameters:

- Dimensions: 49 x 21,5 cm
- Weight: 760 g
- Blade length: 18 cm

Movie: <http://www.youtube.com/watch?v=4BdS5pzgbHo&feature=related>
