We spent years exploring high-end boot knives, and now we've applied that knowledge to a folding knife - the Cold Steel Counter Point. The Counter Point is available in three blade sizes - 3", 4" and 6". Their stiletto-inspired spear point blades have a distinctively pronounced false edge and a lustrous satin finish, combining to make a blade that not only looks great, but delivers a show stopping performance! Made from Japanese AUS10A Steel, the Counter Point is highly corrosion and stain resistant and takes a very sharp and durable edge. The Counter Points handle is made from Griv-Ex and reinforced with heat treated aluminum liners, making it not only very strong, but comfortable and secure in almost any grip imaginable. For added strength and safety, we equipped the Counter Point with our famous Tri-Ad locking mechanism, proven again and again to be incredibly strong and shock resistant.
