Have you ever longed to pick up your expensive, high performance Samurai sword and run amok through the woods stabbing, cutting, chopping and hacking every inanimate object in sight without the fear of losing all your hard earned money by damaging it?

That's why we created the Katana Machete. Made in our factory in South Africa, it offers a 19" long blade with a modified Tanto style point. Heattreated to a tough spring temper and sporting a black, baked-on anti-rust finish, it comes with a good utility edge that can easily be fully sharpened. To facilitate one or two-handed use, we have paired the blade with a long handle, complete with a sturdy cross guard. Injection molded over the blade's tang, and further secured by two thick bolts, it shrugs off hard knocks and defies the elements.

Product parameters:

- Total length: 90,2 cm
- Blade length: 48,3 cm
- Handle length: 41,9 cm
- Weight: 0,9 kg
- Steel: 1055
