Mini Buckler by Cold Steel. The fist-sized Mini Buckler is smaller and more maneuverable at deflecting blows than our larger models. Its size gives it distinct blocking and defense advantages in situations where a larger buckler might be an impediment.

Essentially, a Buckler is a small shield about the size of a large dinner plate. It often accompanied a swordsman as an aid in defense. The Cold Steel training replica is stoutly made and has a thick, sturdy, raised boss to protect the hand, and a rugged handle that will withstand plenty hard of use.

Always wear eye protection and appropriate equipment when training. Not for use when training against metal weapons.
