Popular with Sport Throwers and hobbyists alike, the Torpedo has remained a popular part of our line-up for many years - and with good reason! Cold Steel Torpedos are a lot of fun for target throwing, hunting, and even self-defense, and now they're available in two sizes; the original Torpedo and the new Mini Torpedo! The double tapered points slide effortlessly from the hand for a perfect release and offer twice the sticking potential of a conventional throwing knife. The heavier, 2 lb. version lets you stand way back from the target (15 yards or more) and throw it with surprising force, and the smaller, lighter version can be thrown even farther, and is much easier to carry because it's half the weight. Both hit with terrifying power and are very effective.
