As a nod to the great success of our Pendleton Lite Hunter, we have decided to make more economical version of our popular Outdoorsman knife. They resemble their more expensive versions in that they feature similar blades, guards, handles, and pommels. The only significant change was the use of slightly thinner 4116 Krupp Stainless Steel blades, and the implementation of less costly materials in the handles.

The handles are made in two parts. They feature a Polypropylene guard, pommel, and core section, which totally envelopes the knives' full tangs. The core is then over-molded in a deeply checkered Kraton for a non-slip grip that's impervious to the elements and is easily cleaned with soap and water.

To carry your knives safely and conveniently in the field, we are including a pouch-style Cordura sheath complete with belt loop so it can be easily worn on the belt or tucked into your pack or tackle box.

Product parameters:

- Blade length: 15,2 cm
- Total length: 27,9 cm
- Steel: 4116 Krupp
- Weight: 161,6 g
- Blade thickness: 3 mm
- Handle length: 12,7 cm
- Scabbard: Cordura

Cold Steel is a world known maker of knives, swords and other edged weapons and tools, all products are made of best available materials. Company was founded in 1980 by company president, Lynn C. Thompson. The company's products include fixed blade knives, folding knives, swords, machetes, tomahawks, kukris, blowguns, walking sticks, and other martial arts-related items.
