Cold Steel Outdoorsman Lite fixed blade knife. Following the overwhelming success of our Pendleton Lite Hunter, we decided to make more economical versions of our incredibly popular Outdoorsman knives. They resemble their more expensive counterparts in many ways, (with similar blades, guards and pommels) but featuring a 4034SS Stainless Steel blade, and newly designed handles. The handles are made in two parts. They feature a Polypropylene guard, pommel, and core section, which envelopes the knives full tangs. The core is then over-molded in a deeply checkered Kray-Ex for a non-slip grip that's easily cleaned with soap and water. To carry your knives safely and conveniently in the field, we are including a pouch-style versatile low profile polymer sheath with integral belt loop that can be easily worn on your hip or tucked into your pack or tackle box.
