Our new RPG rockets through the air like its famous namesake and impacts on target with explosive force. It's fun and simple to use; wind up and throw it as if it were a baseball, and watch it fly, end over end, whizzing through the air until it 'thunks' hard and deep into a target, or pulverizes the objects it hits into tiny pieces! It's twin points and heavy handgrip make it easy for even a novice to 'stick' a throw, and in an emergency allow it to function as a formidable bludgeon or double pointed dagger.

The RPG is drop forged out of 1055 carbon steel and 'zone' heat-treated, making it practically indestructible and ready for action.
