I can't think of a better knife to take on an outdoors adventure than a Trail Master. Now available in 3V steel it's more indestructible than ever. Featuring a 9 ½" long clip point blade with an uncharacteristically strong sturdy point it will shrug off wear, tear and even abuse, like water off a duck's back. What's more you will be astounded by the cutting power and edge retention you'll get with 3V steel.
