Throwing knife Cold Steel True Flight Thrower. There are a bewildering number of throwing knives on the market these days, and it seems that most of them are made out of cheap steel that bends or, in the worse case scenario, stainless steel that breaks. That's why we made the True Flight Thrower. The Cold Steel® True Flight Thrower beats the competition by a wide margin.

For strength, we use 1055 carbon steel and finish it with a black, baked-on protective coat. This makes for a hard, yet resilient blade that will "bounce-back" from any throw. And for versatility, the True Flight Thrower has a utility edge that will stand-up to your toughest chores.
