With a variety of sizes, blade shapes and edge configurations it offers unparalleled diversity, with a knife for virtually any situation. Our high quality materials and world-beating Tri-Ad lock ensure that even our super-tiny micro series offer a strength and security that our competitors can only dream about. Ever popular with the Military, Law Enforcement and civilians alike, the Recon 1 series has been tried, tested and proven again and again. Now, for 2013 we are proud to include additions to the Recon 1 lineage.

Our XL series feature all of the same great performance, cutting power and security of our other Recon series tactical folders, but on an even bigger scale! With monstrously thick, wide 5 1/2" blades (available in both Tanto and Clip Point configurations) they are astonishingly effective but still very easily carried in a pocket or clipped to a waistband.
