Cold Steel has always contended that the Karambit is a specialized style of knife with unique but limited uses. It is also, however, quite popular. So, in response to the many requests from our customers, and with the help of custom knife maker, Steven Likarich, we proudly introduce the Steel Tiger, our interpretation of this ancient Indonesian knife. It possesses all the best features of the classic Karambit and unites them with modern styling and materials, and, best of all; we've kept it very affordable.

The broadly curved VG-1 stainless blade is beautifully polished, taper ground, and vacuum heat-treated and sub zero quenched, for maximum strength, cutting power and edge retention.

But it's the grip that really distinguishes it from the competition. Designed for comfort, strength and ease of use, it features a tough Griv-ex core that encapsulates the tang, emerging as the bolster/thumbshelf and distinctive finger ring. This core is then overmolded with Kray-ex, which yields more to hand pressure than Griv-ex, and, in turn, creates a superb, non-slip grip.

For safety, convenience and quick access, the Steel Tiger comes with a sturdy Secure-Ex sheath that you can lash to your gear or retain on your person via the removable boot/belt clip.

Product parameters:

- Total length: 22,5 cm
- Blade length: 12 cm
- Blade thickness: 5 mm
- Weight: 153 g
- Steel: VG-1
