Cold Steel is a world known maker of knives, swords and other edged weapons and tools, all products are made of best available materials. Company was founded in 1980 by company president, Lynn C. Thompson. The company's products include fixed blade knives, folding knives, swords, machetes, tomahawks, kukris, blowguns, walking sticks, and other martial arts-related items.

[See it in our store.](#)

A design collaboration between Cold Steel President Lynn C Thompson and custom knife-maker Andrew Demko, the Black Talon II is a modern masterpiece! It's sinuously curved, needle sharp blade still features the distinctive down-swept point and pronounced belly of the original, but with all new high end American S35VN super-steel and a re-designed tip for additional strength and durability. The textured premium G10 scales offer maximum retention and grip even in cold or wet conditions while still being kind on your clothing when drawn from the pocket.

The contrast between the deep black of the scales and the exquisite rich satin polished blade further emphasize the flair and style of this good-looking and elegant folder. Featuring our high performance Tri-Ad locking mechanism for added safety and strength, this thin, lightweight and eye-catching knife is sure to be the talking point of anyone's collection!
