The Cold Steel Canadian Belt Knife takes inspiration from a 1950's classic. It has all the features that made the original an award-winning, international favorite. Our more contemporary version is made out of 4116 Krupp Stainless steel and hollow ground to a razor edge. It will glide through just about any material because its elliptical profile is very efficient at reducing cutting drag.

The Polypropylene handle is equally efficient, fitting snugly in virtually any hand. It's slightly offset in relation to the blade to keep one's fingers safely out of the way. Light and tough enough to endure hard knocks, it will never break or fall apart in the way a traditional wood handle is prone to do.

This 2-ounce blade comes complete with a pouch style black Cordura sheath. It's light, slim and compact enough to carry on your belt or slung from a cord around your neck day in and day out.
