

Knife Cold Steel Crawford Model 1

Category:

Product ID: 20MWC
Manufacturer: Cold Steel
Price: 55.00 EUR
Availability: Out of stock

Cold Steel is a world known maker of knives, swords and other edged weapons and tools, all products are made of best available materials. Company was founded in 1980 by company president, Lynn C. Thompson. The company's products include fixed blade knives, folding knives, swords, machetes, tomahawks, kukris, blowguns, walking sticks, and other martial arts-related items.

[See it in our store.](#)

Wes Crawford, the custom knife maker, has been a friend of Cold Steel for years, so we were happy to collaborate with him on the creation of an inexpensive version of one of his pricey custom "flippers". The result was our new Crawford Model 1. Strongly resembling Wes's custom knife, the blade features a wide saber grind and a strong, sharp point with plenty of belly for cutting and slashing. It's made from Japanese 4034 Stainless and is hollow ground to a thin, razor edge that will cut at the slightest touch. And, because Wes's "flipper" is integrated into the tang, it can be opened lightning fast! The handle of the Crawford Model 1 mimics Wes's original's profile and silhouette but is made from a strong (yet economical), glass reinforced nylon that includes traction rubber inlays, and a low-profile pocket clip. To keep your fingers safe from potential harm, we have equipped the Crawford 1 with our leaf spring lock, and a (patent pending) secondary safety mechanism that, when engaged is extremely resistant to shock and impact.

Product parameters:

- Total length: 21,5 cm
- Blade length: 8,9 cm
- Blade thickness: 3,3 mm
- Weight: 116 g
- Handle length: 12,4 cm
- Steel: 4034SS
