If you're looking for a budget friendly yet high-performing folding hunter, look no further than the Double Safe Hunter. It's modeled after our extremely popular old-school Voyager®. Its wide, clip-point blade is 3.5" in length and is comprised of 8Cr13MoV steel, tempered to 57-58 Rockwell hardness. No matter what job, you can be confident you have the right knife on hand, with a blade small enough for intricate cutting tasks, yet big enough to skin anything from a mouse to a moose. A dream to use for any length of time its camouflage glass-filled nylon (GFN) handle is thin and ergonomically pleasing and features a replaceable plastic pocket clip. Plastic pocket clips help to limit the snags and scratches to upholstery and other surfaces that steel clips have been known to cause. As always, Cold Steel had your fingers in mind when designing Double Safe. Its state-of-the-art rocker lock features a secondary safety mechanism, that when engaged is enormously resistant to shock and impact.
