While on a research trip in Argentina, Cold Steel President Lynn C Thompson had the pleasure of using a solid steel hunting knife by French knifemaker Michel Achez. He was incredibly impressed by Monsieur Achez's knife, which was both simple in design and astonishingly functional. Inspired by Michel's work (and with his blessing) Lynn began exploring how to bring this classic hunter to a larger audience. The Drop Forged Hunter is expertly heat treated and drop forged from 52100 High Carbon steel with a Rockwell Hardness of 58-59 for superior toughness. Its continuously curved, super-wide blade is both sharp and strong, designed to put in great work in even the most demanding conditions. With no handle to break or no superfluous parts to rot, crack or get damaged in the field, the Wilderness Hunter is a no-nonsense hard-working outdoor / hunting knife and survival tool. Its ergonomic handle, with its integral finger guard deep comfortable trough and lanyard hole, offers a very secure and comfortable grip even when wearing thick, heavy workman's gloves. Supplied with a thick, traditional leather sheath, the Wilderness Hunter is sure to be appreciated and valued by real hunters who will marvel at its performance and value for money.

Product parameters:

- Blade length: 10,3 cm
- Total length: 22 cm
- Blade thickness: 5 mm
- Weight: 225 g
- Scabbard: leather
- Steel: 52100
