Reflecting the best of its Finnish heritage, the Finn Bear is an extremely affordable version of our popular Sisu™. It's ideal for hunting, fishing or camping trips, and makes an efficient utility knife as well!

The 4116 Krupp Stainless blade is hollow ground and given an Rc hardness of 56-57, so it will hold a good edge and is easy to re-sharpen. Its blade shape is centuries old and practical because of its good sturdy point for piercing and long belly for skinning, cutting and carving. It's big and strong enough to skin a Moose, yet thin and delicate enough to slice a tomato or cut up an apple.

The Finn Bear has a straight handle with a slightly ribbed texture for traction. Its modified diamond cross section will fit your hand like a glove and accommodate a wide variety of gripping methods. It's made of tough Polypropylene, so it's impervious to the elements and won't swell, shrink, rot or crack.

For safety and convenience, the Finn Bear comes with a Secure-Ex sheath and generously sized belt loop so it can be worn on the waist, slung around the neck or tossed into a duffle bag or tackle box.
