Cold Steel is a world known maker of knives, swords and other edged weapons and tools, all products are made of best available materials. Company was founded in 1980 by company president, Lynn C. Thompson. The company's products include fixed blade knives, folding knives, swords, machetes, tomahawks, kukris, blowguns, walking sticks, and other martial arts-related items.

[See it in our store.](#)

Designed by award-winning custom knife-maker Andrew Demko, the Cold Steel Frenzy takes its inspiration from ancient Japanese Kabutowari - with a thick spine, slender blade, needle-sharp piercing point and a long flat cutting edge. Made from premium American S35VN steel for superior edge retention, and line-grain satin polished with a deep fuller, the Frenzy's 5.5" blade is as visually appealing as it is effective, and as it catches the light it's truly a wonder to behold! The Frenzy's handle is made from multiple layered and 3D CNC Machined dual-tone G-10. It's thin and flat enough to comfortably carry without "printing" while it's expertly designed and ergonomically contoured shape provides both comfort and retention in any grip. Equipped with the ground-breaking Tri-Ad® locking mechanism for supreme endurance, reliability and safety, the Frenzy is a sleek and stylish mega-folder that takes up very little space in your pocket but snaps open to become a true force to be reckoned with!

Product parameters:

- Total length: 31,6 cm
- Blade length: 14,2 cm
- Blade thickness: 3,5 mm
- Weight: 160 g
- Steel: S35VN
