Sharp as Saladin's legendary blade, the sleek, classically curved Cold Steel Scimitar places the power of the sword in your pocket.

Our craftsmen have captured the timeless quality of superior cutlery and united it with the finest in modern materials. The result is a dazzling, high impact folding linerlock like no other knife available.

The Scimitar blade is hollow ground from super tough VG-1 stainless steel, honed to razor sharpness and features the famous curve of its ancient namesake. Painstakingly designed to facilitate the draw cut, the most effective cutting stroke known to man, the blade also features a needle sharp point which pierces at the slightest touch.

Superior engineering combines traditional appeal with the latest Western technology in the contoured Zytel and steel frame handle designed exclusively by Lynn Thompson for the Cold Steel Scimitar. The pistol grip handle facilitates all types of forward grips, including the saber, quarter saber and hammer grips. Its sleek curves, finger grooves and checkering settle naturally and securely into the hand, maximizing the user's ability to control both the edge and the point. Reverse or palm reinforced grips are mastered with ease, making the pistol grip shape of the Cold Steel Scimitar handle one of the most versatile and user-friendly ever devised. A hard-hitting ball shaped pommel contributes to the Scimitar's rock steady grip and versatility. The pommel can be used as a striking tool to deliver less than lethal blows to nerve centers and soft targets. It can also serve as a secondary grasping point, allowing the user to extend his reach by as much as three inches.

Lock strength is critical in a high performance knife, and the Scimitar is head and shoulders above the rest. We have equipped the Scimitar with a state-of-the-art titanium linerlock for maximum strength and durability. The strength of titanium is peerless in the cutlery industry, and tests on this mechanism resulted in it holding 100 pounds without collapsing, far exceeding the load-bearing ability of our competitors.

A pocket clip makes it a snap to carry and access quick as a flash. Feel the extraordinary power of history's most famous sword design in a folding knife of unequalled versatility- and put it in your pocket - with Cold Steel's Scimitar.

Product parameters:

- Weight: 121 g
