The Cold Steel Espada was inspired by the classical Navaja knives of Spain but was utterly modern in both appearance and materials. These mega-folders took the market by storm! A design collaboration between custom knifemaker Andrew Demko and Lynn C. Thompson, the Espadas are available in two sizes to suit both the bold and the boldest of individuals! Despite their imposing size, they are expertly designed to fit comfortably and discreetly in your pocket. You'll soon forget that you are carrying such a large and impressive blade. Equipped with the patented Demko Thumb Plate, the Large and Extra Large Espadas can be snagged on your pocket, opening the knife as you draw it - and opening in the blink of an eye! The Espada's beautiful blades are made from Japanese AUS-10A stainless steel. Each Espada is equipped with the patented Tri-Ad locking mechanism, proven to have amazing shock resistance and strength. In their own notoriously brutal product testing, the XL Espada was not only capable of holding 600lbs of free hanging weight, but they even used it to support a hanging engine block!

Product parameters:
