CONDOR TOOL & KNIFE traces its proud history back to 1787, the year GERB WEYESBERG COMPANY was founded in Solingen, Germany.

The quality of the swords, military knives, agricultural tools and household cutlery they manufactured made Solingen the cutlery capital of the world. Over the generations, the world's largest manufacturer of swords and knives found it necessary to expand operations to other countries to better serve its customers.

[See it in our store.](#)

Jungolo is a powerful machete that cuts and chops branches and smaller trees. It is very well balanced. The Condor Jungolo Machete has a 33.7 cm blade made of 1075 high carbon steel with a thickness of 5 mm. The natural finish of the blade gives the machete a rustic and earthy feel. The Jungolo handle is made of triple riveted American walnut wood. The well-shaped handle and the well-balanced machete make it fit perfectly in the hand and give the feeling of full control over the tool. The Condor Jungolo machete comes with a handcrafted brown leather sheath with a belt loop.
