---

CONDOR TOOL & KNIFE traces its proud history back to 1787, the year GERB WEYESBERG COMPANY was founded in Solingen, Germany.

The quality of the swords, military knives, agricultural tools and household cutlery they manufactured made Solingen the cutlery capital of the world. Over the generations, the world's largest manufacturer of swords and knives found it necessary to expand operations to other countries to better serve its customers.

[See it in our store.](#)

The Pictus Knife was inspired by the Celtic culture, who made engravings on their weapons, utensils, and even tattoos on their bodies. The "Pictus" name also follows its original meaning (painted and engraved). The "endless knots" on its blade and handle are very characteristic of the Celtic culture.

Condor Pictus Knife. Knife blade is made of heat treated 1095 high-carbon steel. Full tang construction. The handle is made of american hickory wood with a hole for threading the rope. Brown leather scabbard with belt attachment included and three arrowheads.
