This is the legal, carry knife, you've been waiting for. Thanks to the request from my friend Harry, we now make a knife you can legally carry (in most areas) yet still pack a heavyweight punch. The blade is under 3 inches long - way under 3 inches. So now, no one can argue whether it's legal or not. Yes, it has a full size handle, so you know you've got a real knife in your hand. As I've said before, this is the ultimate pocket protector. This is the very first run and quantities are limited. If you want a low serial number of what's going to be the industries most influential knife, I'd pick one up now. The CQC-14 features our Patented "wave shaped opening feature" or Remote Pocket Opener. In an emergency or injury situation the knife can be opened with one hand as it is drawn from the pocket. Black-T coated 154CM stainless blade with radial thumb lug and wave feature. Black G-10 handles. Titanium liners. Lanyard hole. Stainless pocket clip.
