The CQC-10 represents what I've always described as a straightforward, go-ahead design. It feels great in the hand and features a brutish spear point blade profile. This knife gained fame as the official, "Real" knife of H&K and is now in the hands of operators all over the globe. Emerson Knives now offers the CQC-10 directly. The only feature that has changed is the logo. This knife represents a great choice for both military and Law Enforcement because of its true utilitarian design. A great blade coupled with legendary Emerson ergonomics results in a knife that will perform - no matter what the task. Black-T coated 154CM stainless partially serrated spear blade with thumb hole pull and wave feature. Black G-10 composite handles. Lanyard hole. Black finish stainless pocket clip.
