We put a spearpoint blade in it, we made a mini version of it, we even put the "wave shaped feature" on it. This knife just won't go away. It just keeps getting better. Introducing the Super 7, the bigger, badder brother of the CQC-7 knife. I put this knife off as long as I could, but the demand was too great to wait any longer. Now, you can have your cake and eat it too. This knife answers the call for the large version of the CQC-7 knife. It's a real hand full, and I mean that both figuratively and literally. This is not just a knife anymore. It is an awesome cutting machine. This is just about as close to having a Samurai Sword in your pocket as you can get. The Super CQC-7BW features our Patented "wave shaped opening feature" or Remote Pocket Opener. In an emergency or injury situation the knife can be opened with one hand as it is drawn from the pocket. Plain Black-T coated 154CM premium steel chisel ground tanto blade with radial thumb lug and wave feature. Black G-10 composite handles. Lanyard hole. Stainless pocket clip.

Product parameters:

- Hardness: 57-59 RC
- Blade thickness: 3 mm
- Blade length: 9,6 cm
- Total length: 23 cm
- Weight: 161 g
