This is one of those "perfect designs". Originally designed and sold as an exclusive for a major tactical gear manufacturer, the knife is now back where it belongs, in the Emerson line. What was already hailed as one of the finest utility combat folders, it has now been further improved. Long, sleek and perfectly balanced in your hand, it brings to mind the strength and agility of a Jaguar. With the recurved blade built into an extremely ergonomic handle design, the knife screams of grace, power, and stealth. The UTCOM CQC-11 features our Patented "wave shaped opening feature" or Remote Pocket Opener. In an emergency or injury situation the knife can be opened with one hand as it is drawn from the pocket. Satin finish 154CM stainless plain edge blade with radial thumb lug and wave feature. Titanium liners. Black G-10 handles with Black-T coated stainless pocket clip. Lanyard hole.

Product parameters:
