### Gerber Fisherman Multi Plier 600

The Fisherman is the most deluxe version of our Multi-Plier 600 line, with Fiskars scissors and the patented universal saw coupler with premium RemGrit blade. The Fisherman's pliers are elongated for hook removal, and there's even a tungsten carbide hook cutter. Field & Stream named the Fisherman their "Best of the Best" in 2001.

Like it's brethren in the Multi-Plier 600 family of products, the Fisherman is engineered from premium stainless steel.

And it sports our popular one-hand opening pliers.

Folks, this is a very serious tool. With a level of strength and capability that could be lost on most people. But you're definitely not like most people, now are you. Maybe you're even kinda rough on your tools. All the more reason why you need a Fisherman.
