The Practical Plus XL Katana provides a very economical cutting sword as dependable as the Practical XL Katana (SH6000XPF), but using more traditional fittings and construction methods. The blade is forged and differentially tempered (HRC60 edge, HRC40 back) and the hamon is prominent. The Practical Plus features genuine Same (Rayskin) on the Tsuka, with a tightly-woven cotton wrap (Tsuka-Ito). The long tang is double-pegged for security. The fittings of the Practical Plus Elite are decorated in a Japanese Dogwood motif with dragon menuki, and the handsome Tsuba is of an iron "sunburst" design with a brass habaki.
