Viking raiders were famed for their lightning attacks on European coastal settlements. These tactics demanded light, fast weaponry and their sword designs were based on this need. Surviving swords show the Viking swordsmiths to be highly skilled in steel manufacture and forging techniques.

These letter openers from CAS Hanwei are the perfect functional accent to any home or office decor. Crafted in steel with a distinctive antiqued patina, each piece is a small version of one of our full-sized swords and represents a style unique to its own time in history. Each is provided with its own stand and is packaged with a card detailing its origins.
