The TA-2 knife made its debut as a hunting knife, but we quickly found that it was lusted after by many tactical users as well. The ZR-Rated tire rubber handle, coupled with the deep-sweep belly design make the knife a new take on a classic silhouette.

Adding one of Americas super-steels into the mix has just changed the rules of the game. The TA-2CM features 154CM for some of the best edge retention and overall strength that a knife user can find.

Finally, we bead-blasted the blade and tang thus offering the TA-2CM model in two different configurations.

Product parameters:
