The Brous series of knives have been designed in conjunction with Jason Brous, a 10-year CNC machinist and custom knife maker. Brous prefers to use stock removal and grinded bevels to create his "functional fantasy" knife designs. SOG is proud to be collaborating with this up and coming knife designer to produce innovative new products, like this 9CR18MoV stainless steel blade, with a molded hard nylon sheath for reversible belt carry or neck carry. This isn't the last you'll see of the Brous/SOG combo.

Product parameters:

- Total length: 10,9 cm
- Blade length: 5,8 cm
- Blade thickness: 6,4 mm
- Weight: 54 g
- Hardness: 58-60 HRC
- Steel: 9Cr18MoV
