The weapon favored by Ragnar Lothbrok, this axe was essential in Ragnar's rise from farmer to Earl, and from Earl to King. Guided by Oden and believing that his path was destined for greatness, Ragnar and his warriors raid and plunder across England and beyond. This axe was used in all his raids, and was the key to his victory over Earl Haraldson's in the epic season one battle. Ragnar's favored axe is rarely far from his side.

The Axe of Ragnar Lothbrok has been created from the actual television prop and has been weathered to look from the time period. Cast stainless steel head, real leather cross stitch and grip, display plaque and Certificate of Authenticity.
