Tundra Hunter was designed by master knife maker Gil Hibben, an avid hunter and fisherman. His firsthand experience as an Alaskan hunting guide contributed to the design of this custom knife. It has a full-tang, 6 1/2" razor-sharp 420HC stainless steel blade, complemented by a stainless steel guard and pommel. The handsome CNC machined, layered Micarta handle scales have a knothole pattern and are secured to the tang by heavy-duty screws. The handle features ridges just below the handguard to improve control when using the knife. The 11" overall length, fixed blade knife slides securely into a premium black leather belt sheath with a snap closure. When it comes to knives, Gil Hibben always knows exactly what you need!

Product parameters:

- Blade length: 15,2 cm
- Steel: 420HC
- Total length: 28,3 cm
- Blade width: 3,8 cm
- Blade thickness: 4,5 mm
- Weight: 395 g
