In Third Age of Middle-earth, Thorin Oakenshield and his Company of Dwarves came upon a troll lair in Rhûdaur. Thorin found an ancient Elven sword named Orcrist, forged by the high Elves of the West. Adorning the pommel is an emblem of the heraldry of Ecthelion of the Fountain. The hilt is shaped from the tooth of a dragon. This authentically detailed replica is a reproduction of the filming prop built by Weta Workshop of New Zealand and used in the movie, THE HOBBIT: AN UNEXPECTED JOURNEY. United Cutlery, industry leader in fine movie reproductions, has meticulously recreated the prop using only the finest grade materials and craftsmanship. Close attention to detail was a top priority. The sword is 38 3/4" long and features a 25 7/8" stainless steel blade with an etched runic inscription. The hilt is crafted with solid metal parts, simulated gemstones and an acrylic resin grip. It is presented with a wood wall display and includes a certificate of authenticity.

The blade of Orcrist features a curved leaf shape on one side, and a straight edge on the other, a fitting design for a blade meant to cleave Orcs and Goblins. Adorning the pommel is an emblem of the heraldry of Ecthelion of the Fountain. The hilt is shaped from the tooth of a dragon. It is unknown if the tooth was acquired prior to the fifth battle of the First Age, or added to the sword with the inscription in the millennia after the Fall of Gondolin, most likely by the Dwarves of the North.

Officially licensed adult collectible reproduction from the Hobbit movie.

Blade Material: Tempered AUS-6 stainless steel. Handle Material: Acrylic resin. Comes with wooden plaque with silk screen graphics.

Product parameters:

- Total length: 98,4 cm
- Blade length: 68,3 cm
- Steel: AUS-6

For almost thirty years United Cutlery has been distinguished by our unique and innovative product designs that cover a wide range of knives and swords, from functional to fantasy:

- Collectible Movie Replicas
