The Honshu Boshin Seax Knife is an exceptional addition to the Boshin line of tactical weapons, which blends tradition and innovation and style and function. The 19 3/8" blade has a rock-solid, full-tang 7Cr13 stainless steel construction and it features weight-reducing thru-holes and a fuller. The textured, ergonomically contoured TPR handle is secured to the tang with heavy-duty screws and the ridges provide a secure, no-slip grip. The seax knife is 25 3/4" in overall length and it comes housed in a premium, reinforced genuine leather belt sheath, which features a paracord lanyard for lashing. Like all the swords and knives in Honshu's Boshin line, the Boshin Seax Knife sets a new standard for both quality and value.
