Honshu is known for its savage blend of tradition and innovation that forges a style and function in its modern, battle-ready weapons that's beyond compare. Honshu Naginata takes the traditional pole weapon design that was used by the Samurai class and elevates it into a modern battle weapon. It has an 18", satin-finished 7Cr13 stainless steel blade, secured to the handle with heavy-duty screws and the guard is hefty. It has an injection-molded nylon handle with 30-percent fiber and the EDM surface texture provides a no-slip grip. The impressive naginata is 67" in overall length and it comes with a leather blade sheath with a snap strap closure.
