Windlass Steelcrafts

[See it in our store.](#)

Another All Purpose Function addition to the Windlass Cobra line! Like the Cobra Steel Falcata (#402532), this survival knife features a hand-forged, 1095 high carbon steel blade, fully tempered in state-of-the-art computer controlled ovens to a Rockwell hardness of 48^o-52^o so it will flex in a cut and come back for more. Features a rubber scale on a full profile tang for great performance while absorbing shock. Inspired by Eastern and African swords and knives with inward curving blades. A great bush and defense pattern. Includes a tough, saddle grade leather belt sheath. Comes with a razor sharp edge.

Product parameters:

- Blade length: 38,1 cm
- Total length: 53,3 cm
- Blade thickness: 4,7 mm
