Designed by Tim Galyean, this fixed-blade boot knife is built of top-of-the-line materials for unparalleled performance. The PVD-coated, laser-machined blade is S30V stainless steel—one of the industry’s strongest steels. The dagger blade features full-tang construction, a blood groove, and PVD (Physical Vapor Deposition) coating in non-reflective bronze. For a superior grip in all weather conditions, the grooved handles are 3-D machined in matte-black G-10. The sure-grip handle is drilled to accept a lanyard. Includes Kydex® sheath with MOLLE compatible, multi-carry configuration.

Product parameters:

- Steel: S30V
- Handle: G-10
- Blade length: 9,2 cm
- Total length: 19 cm
- Weight: 102 g
