The new 0350ST is 10% smaller and lighter than the original 0300, but provides all the cutting and piercing power you demand—plus a partially serrated blade for added cutting versatility. The 0350ST is equipped with SpeedSafe® manual assisted opening for one-handed opening. Even in combat gloves, you can easily deploy the blade using the large, ambidextrous thumb stud or blade protrusion. The blade is S30V stainless steel with Tungsten DLC (Diamond Like Carbon) coating. S30V offers extreme durability, while the black Tungsten DLC enhances hardness, and reduces friction drag. Textured, matte-black G-10 scales provide an extra-secure grip. Includes a quad mounting system for tip-up, tip-down, left- or right-handed clip carry.
